```

Format

```
[bsv-button parameter="value" ...]your content here[/bsv-button]
```

Parameters

Parameter	Description	Default
`style`	Bootstrap color style: `primary`, `secondary`, `success`, `danger`, `warning`, `info`, `light`, `dark`.	`primary`
`size`	Button size: `sm` or `lg`.	*default*
`link`	Optional URL. Without a link the component renders a `<button>`.	*empty*
`target`	Link target: `_self`, `_blank`, `_parent`, `_top`.	`_self`
`tooltip`	Tooltip text for the button. The old literal `no` value no longer creates a tooltip.	*empty*
`outline`	Use the outline style: `yes` or `no`.	`no`
`custom_text_color`	Custom text color: three/six-digit hex or `rgb()`.	*empty*
`custom_bg_color`	Custom background color: three/six-digit hex or `rgb()`.	*empty*

`target="_blank"` adds `rel="noopener noreferrer"`.
