Absence Type Icon

> TeamCal New does not support custom icon files anymore for absence types. This change was made due to security and bandwidth considerations.

Each absence type can be represented by an icon. TeamCal Neo includes the free set of 1480 Font Awesome icons (version 5.3.6).

Font Awesome offers Solid, Regular and Brand icons. They are separated here by tabs.

The currently saved icon for the absence type edited is marked by a red rectangle.

Buttons

Button	Description
Save	Save your current selection of the absence type icon
Back to Edit	Goes back to the absence type edit page
