Dark Mode

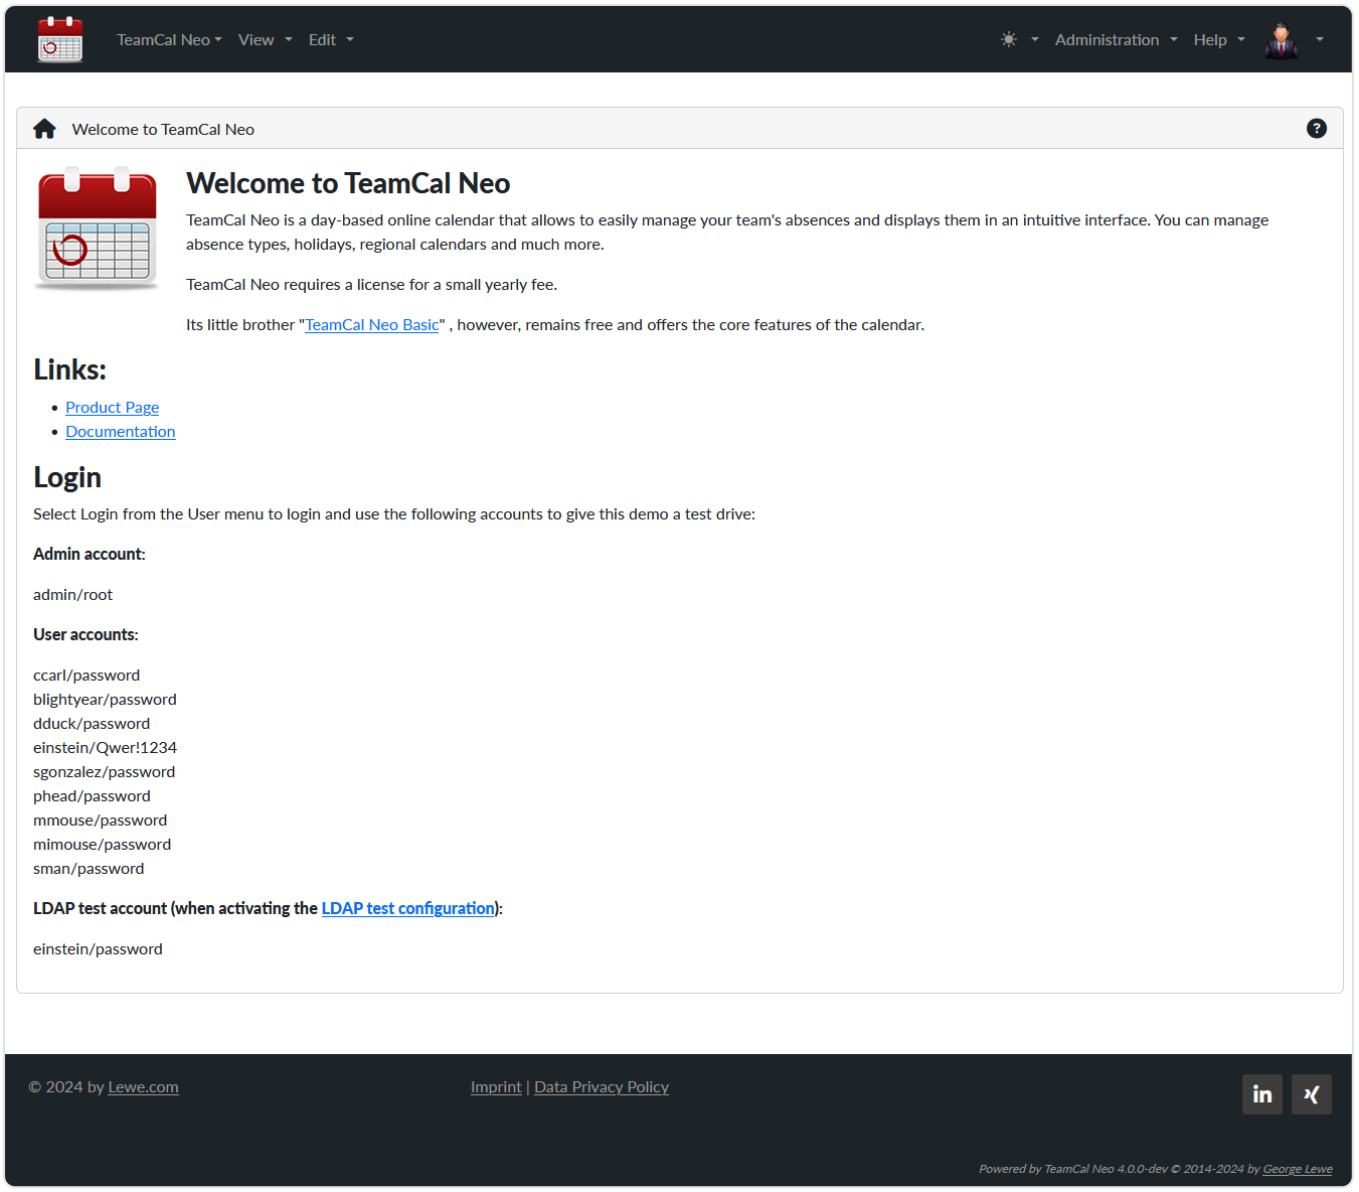

A much requested dark and light mode was introduced in TeamCal Neo in version 4.0.0. Actually, there was a dark theme available before but no easy instant switch between the modes.

In the top menu you can now find the Theme switch menu:

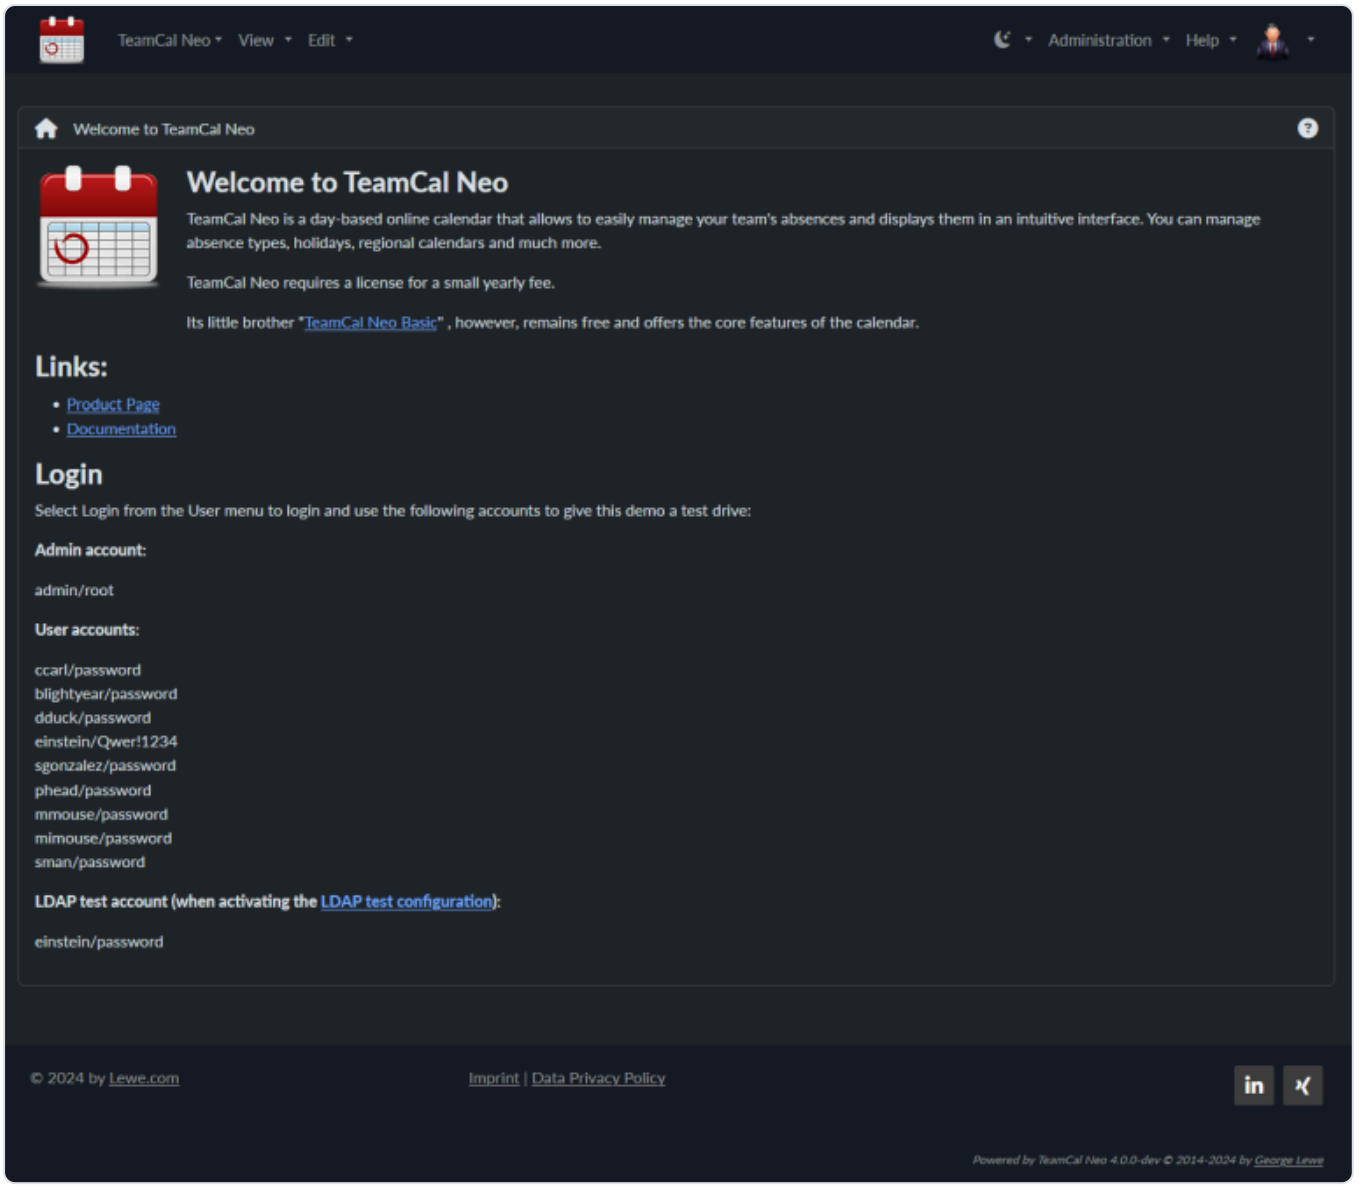

Light Mode

Light Mode switches to a light background with dark font colors:

Dark Mode

Dark Mode switches to a dark background with light text colors.

Auto Mode

Auto Mode will try to find out whether you have a dark or light mode environment on your computer and then adjust the mode accordingly.
