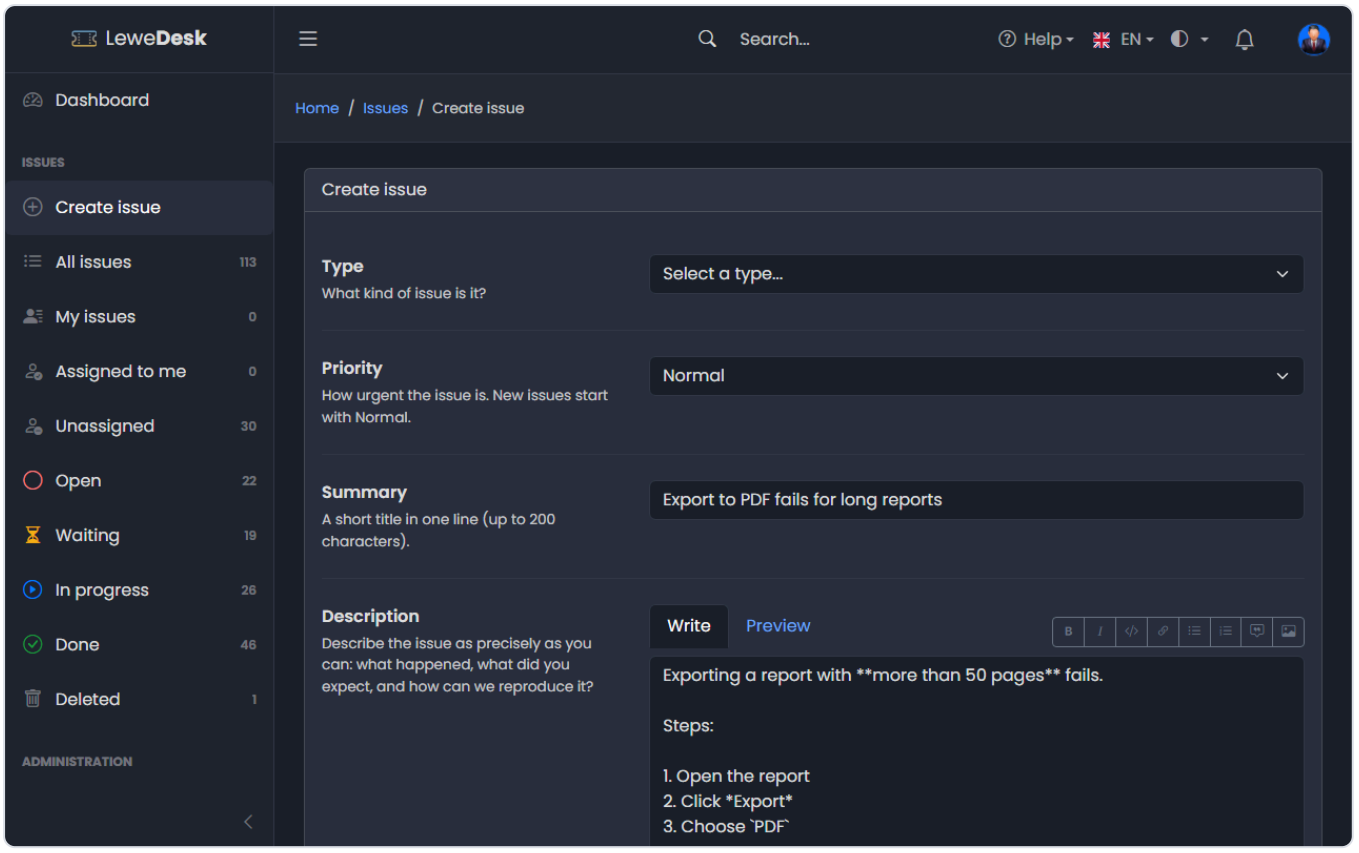
Markdown

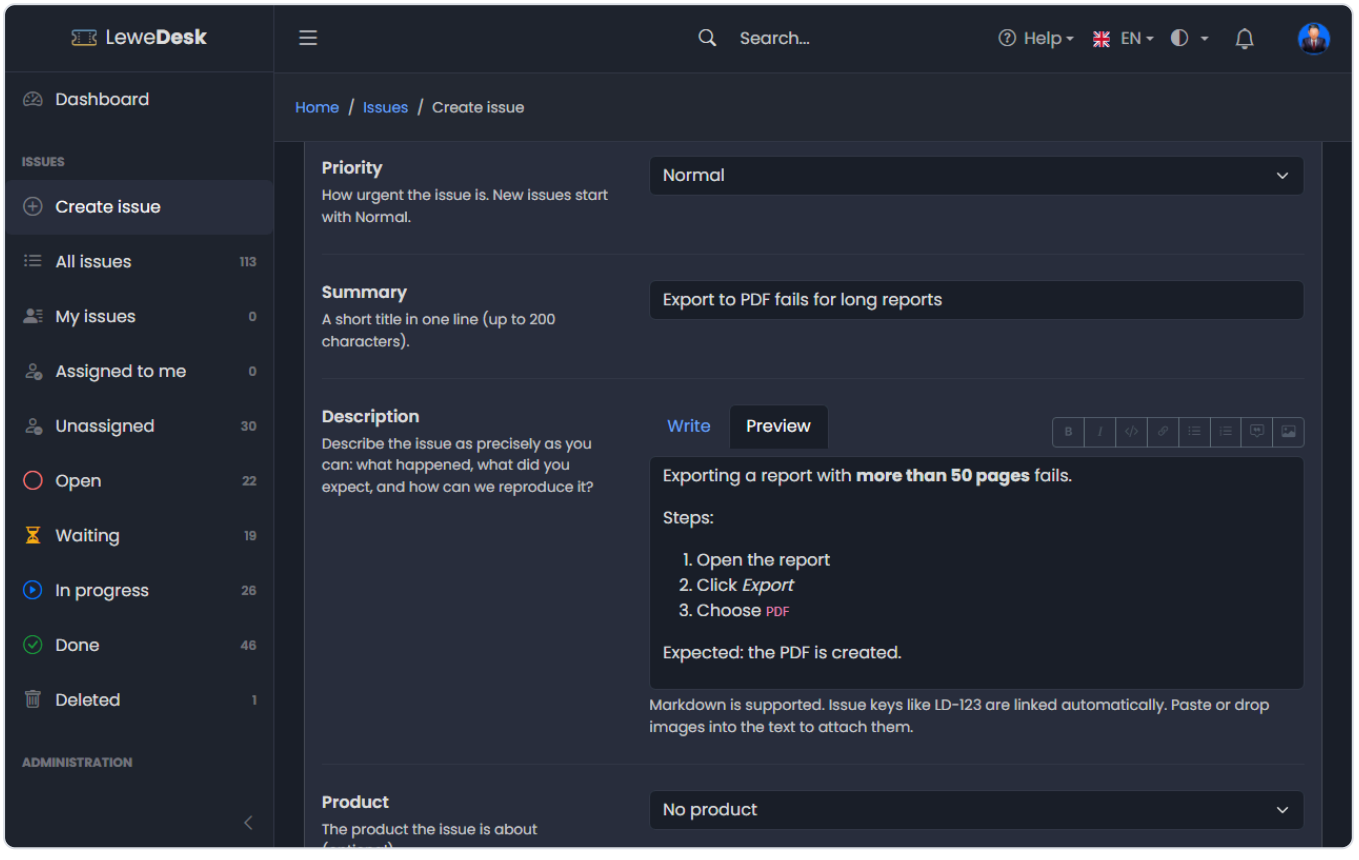
Descriptions and comments support Markdown, a simple way to format text. Use the toolbar above the text field, or type the Markdown yourself.



Toolbar

Button	Result
B	Bold
I	Italic
`</>`	Code
Link	Inserts a link
Bulleted list	Inserts a bulleted list
Numbered list	Inserts a numbered list
Quote	Inserts a quote
Image	Inserts an image. You can also insert an existing image of the issue.

Click **Preview** to see the result, and **Write** to go back to editing.



Syntax

You type	You get
`**bold**`	**bold**
`*italic*`	*italic*
`` `code` ``	`code`
`[text](https://example.com)`	a link
`- item`	a bulleted list
`1. item`	a numbered list
`> quote`	a quote
`LD-123`	a link to that issue

Images

Paste an image from the clipboard or drag it into the text. Only gif, jpg and png images can be inserted. See Attachments.

Good to know

- Raw HTML is shown as text and not executed
- Links must start with `https://`, `mailto:` or be relative
- Issue keys inside code blocks are not linked
